Oliver+

Cover Letter – Application for CGI/3D Artist

Dear Hiring Manager,

I am applying for the Mid 3D/CGI Artist position at OLIVER+. As a native UK professional based in Mexico with over 15 years of experience in 3D visualization and architecture, I believe I'm uniquely qualified for this remote role.

I offer advanced 3D expertise with proficiency in 3ds Max, Corona, and V-Ray, creating photorealistic renders for high-profile projects, as well as unreal engine proficiency. My professional foundation was built at leading UK visualization agencies including Squint Opera, Virtual Artworks, and Glass Canvas, where I developed my skills creating architectural visualizations and marketing imagery for prestigious clients. This experience gave me a strong grounding in industry best practices and high-quality production workflows.

As CEO of Grillo, I developed compelling 3D product images featured in Wired magazine and used by partners including Amazon and IBM. My experience extends to motion graphics with Adobe Creative Suite including After Effects and Premiere.

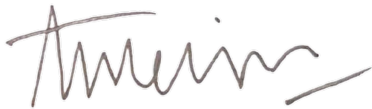

Andres Meira | andresmeira@gmail.com

Throughout my career, I've successfully managed relationships with prestigious clients such as the Clinton Foundation, Deutsche Bank, Royal Academy of Music, and many more, consistently delivering high-quality visual projects on time and within budget. My architectural background gives me a strong sense of space, composition, and attention to detail essential for creating impactful marketing materials.

I'm excited about contributing to OLIVER+'s innovative work and would welcome the opportunity to discuss how my skills could benefit your team in Mexico.

Warm regards,

Andy Meira
